Scholastic Art Awards
The Scholastic Art Awards program aims to encourage student achievement and to emphasize the importance of the visual arts in the school curriculum. North Carolina, with a rich tradition as the State of the Arts, has three regional districts. Barton College hosts the largest North Carolina Scholastic Art Award regional district in the state with 62 counties representing the eastern half of the state. This year approximately 2142 art and photography entries were received from 130 public and private high schools in the Eastern/Central region. Six jurors of professional artists and art educators selected works to receive special recognition. Works receiving a Gold Key were exhibited in the Barton College Art Museum and then sent to New York City for national judging in March. Silver Key award winners were represented in the digital exhibit. Honorable mention works were recognized on the Barton College website. Cardinal Gibbons High School students were well represented by receiving over fifteen percent of the total awards. Approximately 300 of the national award winning works will be displayed in the 2012 National Scholastic Art &Writing Awards Exhibition and reception at Parsons School of Design in New York City. Coinciding with the national celebration events, students and teachers will receive their award at Carnegie Hall on June 1.
